

swiss-cdf

compact density fibreboard

swiss-cdf is a lightweight alternative to compact grade laminate.

This clever innovative range offers a durable, tough surface and an extremely sturdy composition. Reliability that you would expect from Kronospan Switzerland AG. The latest technology and high quality, sustainable raw materials have combined to produce this brand new product with outstanding qualities.

Cubicle Standard Specification

Panel: Compact density fibreboard 12.8mm
Hardware: Satin Anodised Aluminium (SAA)
Height: 1950mm (1800mm panel, 150mm leg)
Depth: 1500mm
